

I have greatly enjoyed listening to AIR1 for the last 6 years and would be very sad if the AIR 1 signals were replaced by an LPFM which will have different programming. AIR 1 provides me with positive and uplifting programming, always void of R rated material and slanderious gossip. When I am down and tired this station lifts me up. I LOVE music and always listen to the radio - without AIR 1 the music I love would be harder to find on the radio, troubling me greatly. The service AIR 1 provides is good for everyone because of its positive messages, something society needs more and more when music and other entertainment are often trashy, sexual and focused on selfish ambition. Please do not replace AIR 1 with LPFM!
